### Projects

I have built more than 25 live websites and applications using JS, jQuery, HTML, SCSS and Vue. Few of the ones, I have built:

- ✓ [buenavistainnsf.com](#)
- ✓ [thestevenonmonterey.com](#)
- ✓ [hotelnapavalley.com](#)
- ✓ [foothillsquaredental.com](#)
- ✓ [bwsfansboro.com](#)

I have also made few personal projects using **React**:

#### Job listing & Filtering:

This was a challenge project on Frontend Mentor website. I used React and JS ES6. It fetches data from JSON file and you can filter the jobs based on available tags. The app updates in real-time.

#### Indecision App:

Indecision is a decision making application. The app saves data in the local storage. I have created components from scratch as well as implemented 3<sup>rd</sup> party components.
