Experience

UI Developer (April 2019 – Present)

INNsight Interactive Pvt. Ltd.

- ✓ Developed and maintained designs & code for web applications primarily utilizing *HTML, SCSS/CSS, JavaScript, jQuery, React.JS, Photoshop, Illustrator* and more.

- ✓ Converted complex *PSD/Figma designs to* W3C and WCAG 2.0 compliant fully responsive HTML & CSS.

- ✓ Collaborated with Backend Developers & Quality Assurance Team to deliver bug free, well performing applications.

- ✓ Optimized websites for higher *Google page speed* scores for better Search engine ranking and faster loading.

- ✓ Tested code in various browsers and devices to ensure *cross-browser compatibility* and responsive behaviour.

- ✓ Planned and Developed *AMP* versions for standard websites.

- ✓ Developed Email Templates using HTML and CSS.

Freelance Web Developer (2018 – 2019)

- ✓ Developed website for a news agency - Bihar Express News.

Projects

I have built more than 25 live websites and applications using JS, jQuery, HTML, SCSS and 3rd party libraries and plugins. You can check my portfolio on yourdevujjawal.com
Few of these projects are mentioned below:

buenavistainnsf.com   thestevensonmonterey.com   hotelpetaluma.com
bwswansboro.com   avenueinnslo.com   foothillsquaredental.com

Few *personal projects* that I made using **React**:

My Portfolio Website v1:
Designed my portfolio website in Photoshop and implemented it using React. I hosted it using Netlify. I have kept it *Open Source*.
GitHub | Live Website

IP Address Tracker:
This was a frontendmentor.io challenge. This application tracks the user's IP address and location on load. User can also track any IP address in this application.
GitHub | Live Website

Indecision App:
Indecision is a decision making application. The app saves data in the local storage.
GitHub | Live Website
